

Ultraire™
Air Care Solutions

Ultraire™ Air Care Solutions

Ultraire™ offers a unique fragrance delivery method, which minimizes carbon footprint impact. Powerful fragrances offering maximum coverage to freshen larger areas that call for a specialized air fresh solution.

Why Implement an Air Care System?

Malodours are Unavoidable

Even the cleanest areas are prone to unavoidable smells which is why no washroom care program is complete without a system in place to address air quality.

Smell Matters

Research shows a building's cleanliness will be evaluated by how clean it smells before how clean it looks.

Reinforce Positive Experiences

People tend to remember smells for two times longer than what they see or hear.

Ultraire™
Air Care Solutions

Product Overview

Targets Malodours

- Ultra-fine freshening molecules leave behind a clean scent.
- Piezo technology allows for a lower VOC formula.
- Dosage frequency can be customized based on the needs of your facility.
- Dispenser components recycled at end of life cycle.

Consistent Air Quality

- Continually releases fragrance into large area environments.
- Air fresh particles stay airborne up to 2 hours.

Product Options & Specifications
