# FreshAire™ Air Care Solutions

*Citron Hygiene™ air care systems dispense an advanced, concentrated, CFC-free aerosol formula to neutralize unpleasant washroom smells.*

## Why Implement an Air Care System?

### Malodours are Unavoidable

Even the cleanest washrooms are prone to unavoidable smells which is why no washroom care program is complete without a system in place to address air quality.

### Smell Matters

Research shows a washroom's cleanliness will be evaluated by how clean it smells before how clean it looks.

### Reinforce Positive Experiences

The average person visits the washroom 6-8 times per day. Ensuring good air quality is essential to promoting a clean and healthy image in your facility.

**FreshAire™**  
Air Care Solutions

## Product Overview

### Targets Malodours

- Targets malodours at the molecular level leaving behind a fresh, clean scent.
- Odours neutralized through a patented precision dosing delivery system.
- Dosage frequency can be customized based on the needs of your facility.
- Wide range of fragrances available including non-scented.
- Aerosol cans and dispenser components recycled at end of life cycle.

### Consistent Air Quality

FreshAire™ continually releases an identical amount of effective air neutralizing formula into the washroom environment on a predetermined schedule to perform consistently throughout the service cycle.

## Product Options & Specifications

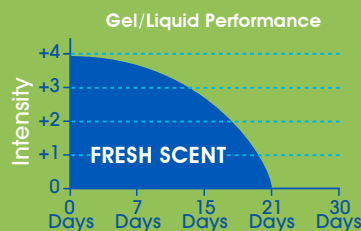

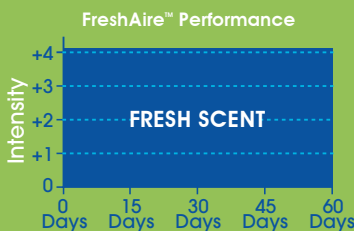

Dispenser Colours.... White, Designer Grey or Black

Dimensions..... H: 19cm, W: 8.5cm, D: 6.5cm

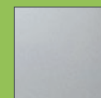

Fragrance Options... 4 Distinct Scents / Fragrance Free

Power / Electrical.... Batteries included

Sustainability..... Unit recycled at end of useful life

White

Designer Grey

Black
