

Sani-Restore

A deep-penetrating injection system to deliver a powerful jet of detailing solution to all surfaces in your washroom.

Sani-Restore is a high-tech complement to our weekly sanitation service performed by our trained Hygiene Specialists.

This deep cleaning application is applied to floors, ceilings, walls, vents, stalls, fixtures and more – ensuring your restrooms remain presentable in order to protect your brand and your business.

It minimizes the danger posed by microscopic germs, viruses and bacteria that can create health hazards for your employees and customers.
