Life Safety
Peace of Mind

Promoting health and safety in the workplace, and ensuring your organization can respond effectively to emergencies, with the appropriate first aid supplies and equipment is not only a legal requirement, it is simply the right thing to do for your employees, customers and guests.

Why Consider a Life Safety Program?

Enhance Engagement

Demonstrating a strong commitment to workplace health and safety shows employees you care.

Promote Awareness

Enhance organizational awareness for health and safety.

Peace of Mind

An integrated program ensures that first aid needs are being maintained.

Stay Focused

While Citron™ services your needs you can focus on your business.

Products and Solutions

Automated External Defibrillators

The HeartSine® Samaritan® 350P and 500P with CPR Advisor are the number one choices for durability, reliability and low cost of ownership. Clinically superior and technically advanced, the HeartSine® AED is the smallest and lightest unit on the market.

Equipment and Accessories

- Alarmed, wall mounted storage cabinet
- Emergency responder safety kit
- AED wall sign

Service and Support

- Installation
- Monthly monitoring and inspection
- Tracking of AED serial numbers and expiration dates
- Event review and AED resets
- Essential AED & CPR training

First Aid

Citron Hygiene™ first aid kits and stations are designed to address the size of your organization, industry specific hazards and exceed occupational and workplace safety requirements. Trained professionals provide installation and maintenance on a regular service schedule.

Typical Service Visit

- First Aid items are inventoried and replenished as required
- First Aid stations are scanned, dated and signed for service confirmation
- Consultation occurs to address re-stocking requirements and any other concerns

Service Program Details

- Exclusive **CitronSync™** technology is your guarantee of service.
- **Citron Certified Technicians** maintain each system on a pre-determined schedule.
